
BETA High School Job Shadow Program

About BETA

BETA is a Burlington, Vermont-based aerospace and electric aircraft manufacturer developing fully electric vertical take off and landing (eVTOL) aircrafts, and related charging networks.

Program Mission

BETA's goal is to give back to our local community and encourage education in the STEM disciplines. BETA will achieve these goals by presenting opportunities for career exploration to young adults in the community and supporting Vermont workforce development.

Program Overview

The BETA High School Job Shadow Program is an eight-week rotation program, where students have the opportunity to shadow various teams and disciplines at BETA. Students will be required to dedicate 4-6 hours per week to the program where they will follow team members as they perform regular duties. This may include hands-on activities that students may be able to participate in, as well as meetings discussing the design of a component or a plan to implement a new design. Potential teams/disciplines students may shadow are Charging, Batteries, Motors, Manufacturing, Flight Simulation, Alia Maintenance, Electronics, IT, and Mechanical Engineering.

Ideal candidates display a positive attitude, willingness to learn, and lots of enthusiasm and curiosity!
